One desire, one belief, one unique sound.

Groove Cymbals was born from the Turkish tradition, using the perfect blend of copper and tin, that has created beautiful sounding cymbals for centuries.

Experienced hands craft these instruments, so that you can get the most balanced sound and gorgeous looks on a professional cymbal.

Made in Turkey, designed in Portugal.

Groove Cymbals is the first Portuguese cymbal brand, and everyday we feel proud of being able to provide drummers all around the world with some of the best cymbals in the market.

We refuse to compromise, because we won't take anything less than perfection... pure and magical cymbals, that are truly a work of art.

Discover our full line of cymbals, we're sure you'll be able to find your unique voice.

**Welcome to Groove Cymbals,
it's your sound.**

Devotion

Classic Sound

*Pure tone and versatility are the main qualities of this series.
Light hammering gives these cymbals a classic and warm sound.*

The Devotion series cymbals fit any genre and style of playing, providing drummers with a classic sound, perfect sustain and a warm tone.

Rides are smooth and crashable, hi-hats have a defined “chick” when closed and a soft washy sound when open, crashes present an excellent sustain, chinas are full-bodied, splashes have a great attack with a glassy decay and the effect bells are a nice addition to any setup.

With this series, everything is customizable, just tell us your idea!

Shimmer

Modern and Bright

A modern rendition of a classic sound, with extra brightness that will help you cut through the mix, live or in the studio.

Shimmer series cymbals are made in the same way as the Devotion series, but the brilliant finish makes them brighter, for extra projection. They are perfect for situations where extra volume is required, providing the drummer with a very clean and defined sound.

A great cymbal for rock and pop. Rides are more pingy and have stronger bells, hi-hats have great definition and crashes are powerful and bright.

Swing Sultan

Warm and Expressive

*The perfect choice for anyone looking for that vintage sound.
A very warm, washy musical cymbal.*

Everyone loves vintage cymbals! The warm and round tones, the washy character, the way they tend to blend into the mix.

The Swing Sultan series brings back that old school vibe, that sound that everyone remembers from all the classic records. A cymbal that is truly musical and clear.

From jazz to classic rock, these cymbals are perfect when you need something that sits in the right spot and compliments the music.

CRIXUS

Traditional & Raw Hybrid

*A unique cymbal that combines the classic tone with a raw attitude.
Very musical, very controlled, very unique.*

Crixus came, saw and conquered!

A hybrid concept that blends the Devotion and Raw Complex series, mixing the best of both worlds. Traditional finish on the outer half of the cymbal, with a raw hammered bell and inner half.

The result?

Great classic sound, but with a more controlled sustain, creating a very unique cymbal, capable of performing very well in any style of music.

CRIXUS

WHITE

Classic Hybrid

*The hybrid concept with a vintage twist.
A softer and more crashable cymbal that melts under the stick.*

We took the Crixus series and pushed it even further, giving it a touch of Swing Sultan's vintage vibe.

A very mellow and soft cymbal, that opens up very nicely and lets you bury the stick in a very pleasant way. A lower profile bell helps to bring out the extra wash, without sacrificing any of the clarity.

A very open and explosive cymbal that has it all: attack, projection, warmth and, above all, great musical tone.

RAW Complex

Dark and Warm

*For drummers looking for a dark and complex sound with a warm tone.
Without a doubt, a cymbal with a personality of its own.*

Raw unlathed cymbals are an art and we take them very seriously.

Groove Cymbal's Raw Complex series are made in the way that a true raw cymbal should be made: thin, explosive and very responsive.

These cymbals are ideal for groovy, soul and earthy genres, giving drummers the opportunity to express and hear every stroke. In this series, every cymbal is very unique and special, with a dark and warm character.

FX-Shimmer

Explosive Effects

As drummers, we all need some kind of special sauce on our arsenal. The FX-Shimmer series give you that modern exploding cymbal sound.

In this modern era, every drummer needs a special effects cymbal on their kit.

With that in mind, we took the Shimmer crashes, made them thinner and added some holes. This allows the cymbal to have a very quick and trashy sound, that stands between a crash and a china.

The brilliant finish helps the cymbal to cut through, making it great for accents or as secondary crash. You can also combine it with other cymbals and creat some interesting stacks.

Stackxx

STACKED CYMBAL KIT

Stacked to Perfection

We went through all the trouble of finding the perfect stacks, so you didn't have to.
Grab a pair and give your cymbal sound a new accent!

Stacks are here to stay, but sometimes you just don't want the hassle of going through dozens of cymbals until you find the ones that work well together.

We stacked a 16" FX China and a 14" FX Crash, The result is a fast and responsive stack, that has great attack and is harmonically perfect, without weird overtones.

However, you can order a custom stack at any time, just contact us and tell us what you had in mind!
